COURSEWORK

GRADUATE

Neural Networks Systems

UNDERGRADUATE

Data Structures and Algorithms Computer Architecture DBMS + Practicals Distributed Systems Software Engineering + Practicals Operating Systems

SKILLS

PROGRAMMING

Fairly skilled:

Golang • Shell • Python • Javascript HTML • MySQL

Django • Angular JS

Familiar:

Java • PHP • Android • PostGreSQL

TECHNOLOGIES

Fairly skilled:

Linux • Redis • HAProxy • Nginx

Locust • Git • Zookeeper

EXPERIENCE

CAROUSELL SENIOR SOFTWARE ENGINEER, BACKEND ENGINEERING August 2017 - August 2019 | Singapore

Helped develop the Ads platform for serving ads on the application.
 Contributed to the making the product robust and resilient. Facilitated the growth of the backend engineering team from 2 to 6. Mentored the incoming engineers on efficient and sustainable coding practices. Developed it from scratch in Go.

FLIPKART SOFTWARE ENGINEER (SDE 2), CLOUD PLATFORM

July 2015 - August 2017 | Bengaluru, India

- Designed and implemented a virtual testing framework for our load balancer service, by making a mock of the entire data center. Used MiniNExt library for emulating the network switches, protocols etc. The framework was built in Python.
- Designed and implemented the Health Check Service component of the Elastic Load Balancer, used to report the health state of hosts in the data center. Implemented it in **Go**

GOOGLE SUMMER OF CODE INTERN

May 2014 - August 2014 | Remote

• Worked with the Fedora Project, to build a cached Bug tracking system, called Bugspad. Used **Redis** as the cache, and **Go** as the framework.

GETMEASHOP PYTHON/DJANGO HACKER

May 2014 - August 2014 | Remote

- Made a B2B portal for sellers to list their products simultaneously on multiple e-commerce platforms(Amazon, Flipkart, Snapdeal etc.) using Haystack, Solr, Django.
- Implemented a price crawler for various products on Amazon, Flipkart and Snapdeal using **Scrapy** library in **Python**.
- Made an online test taking application for various subjects like Maths/Physics/Chemistry etc. using **Django**

GOOGLE SUMMER OF CODE INTERN

May 2013 - September 2013 | Remote

 Worked with Ankur India, to make a tool for the judging the aesthetic quality of fonts for Indic scripts like Devanagri, Bengali, Gujarati, Telugu etc. It compared with a set of standards and give scores on various parameters. Acheived this using the **Python** API bindings of **FontForge**.
